Evolution Of Methodologies For Efficient Multi- Agent System Projects	Mar 2017 – May 2017	I have mentored Mr. Himanshu in his MS research work in an European University that involves AI and MAS concepts, applicability of the methodologies like AUML, Prometheus Tropos, O-MaSE and GAIA methodology. I also guided him about the prospectus of using MAS in a cloud platform and use of Big data and cloud tools.  Mini-project for MAS methodology selection using several criteria and use of an expert system to select right tool based on the research work. MAS methodology selection tool - Expert system, Industry framework for features, AI /fuzzy logic used and use of statistics, Java based tool hosted in AWS use of Spark to leverage scalability	Services	Complete
Al and Neural NW assignment	Jun 2010 – Aug 2010	This is a write up of the AI related assignment displaying the knowledge acquired for the M.Tech course for the AI major.  Knowledge representation, expert systems, forward vs backward reasoning, best first search, Travelling salesman problem,neural model for perceptron, simulated annealing, Boltzmann machine, Bayesian probability, fuzzy logic, genetic algorithms, synaptic dynamics model	Services	Complete
